

US NetCare Launches to Provide Affordable Health Insurance for Non-US Citizens

(NEW YORK) February 6, 2007: US NetCare, an online administrator of healthcare and medical insurance plans to non-US citizens living in America, has launched to provide this growing community with affordable, practical insurance coverage. US NetCare offers a variety of plans to help all immigrants and other non-US citizens realize their own "American dream." US NetCare's medical services are provided by First Health PPO, an extensive, nationwide network of medical professionals that shares US NetCare's commitment to the well-being of the non-citizen population. All non-US Citizens residing in the US are eligible, and there are no long health history forms to submit for enrollment. US NetCare also features multi-lingual customer service representatives to assist individuals during the enrollment process and throughout the duration of their coverage. There are over 30 million non-citizens currently living in the US, many of whom come seeking employment or other opportunities to better their lives and the lives of their families. The high cost of insurance can prohibit them from achieving success in their new country. US NetCare aims to offer more comprehensive and flexible plans that support the diverse needs of this group and do not hinder their ability to improve their quality of life and reach for their American dream. Non-citizens residing in the US can include immigrants, foreign workers, exchange scholars, international executives, expatriates, green card holders, international students, undocumented individuals, or diplomats, among others. Through US NetCare, these individuals and their families can obtain coverage for the course of their time in the United States. About US NetCare US NetCare is a pioneer health insurance administrator, established with the purpose of improving the well-being of foreigners and immigrants in the USA. By providing innovative medical insurance plans at affordable rates, US NetCare serves the vast population of non-US citizens in America. Through extensive experience serving foreigners of many nationalities, regardless of immigration or visa status and financial capabilities, US NetCare has a broad knowledge of the special needs of this group. With multi-lingual service representatives, convenient enrollment process and commitment to customer care, US NetCare provides a comprehensive solution for the healthcare needs of the non-citizen community.
