

## Pharmacy Technician Online Schools

Online Pharmacy Technician Schools offer programs of study in this medical profession that can give the student, with no prior experience, a new career. Online Pharmacy Technician Schools, colleges, and universities prepare students for entry-level Pharmacy Technician positions. Pharmacy Technicians must have a broad knowledge of pharmaceutical practices and must be skilled in pharmaceutical techniques. Medical and pharmaceutical terminology, basic anatomy, pharmacology, pharmaceutical calculations, and other related subjects will be covered in Pharmacy Technician courses. Online Pharmacy Technician Schools offer, associate and bachelor degrees, or certificates and diplomas for Pharmacy Technicians. Graduates with Online Pharmacy Technician School degrees and diplomas work in hospital pharmacies, retail pharmacies, web site stores, and nursing homes. Pharmacy Technicians may perform many of the same duties of a pharmacist; however, their work is overseen by the attending pharmacist. Pharmacy Technicians assist the pharmacist with patient care, directly or indirectly, and assist in the operations of running a pharmaceutical business. Depending on the level of education and experience, a Pharmacy Technician may fill prescriptions, order, stock, package, and prepare medications, compound IVs, assist patients with their medical needs, assist with patient care, and maintain patient profiles. Questions regarding prescriptions, drug information, and health matters that a may have will be referred to a pharmacist. The Pharmacy Technician Certification Board National Exam is a rigorous exam given several times annually. Courses will prepare Pharmacy Technician students for this examination.
