More about "Lesson 10: Booting into your San"

Why should you boot from a San? In lesson ten of SearchStorage.com's "San School" Christopher Poelker gives you a number of different reasons why booting from a San is beneficial. Chris also looks at which HBAs are available and might be the right fit for your organisation. This lesson also walks you through the nine step process for booting a San -- complete with code and screen shots.

What you'll walk away with:

- \*\* Understanding server booting
- \*\* Discovering San boot benefits and booting concepts
- \*\* Understanding the boot BIOS
- \*\* Choosing the correct adapters
- \*\* The ability to ask Chris your specific San booting questions

Please join Christopher Poelker for this webcast right now. Also, follow along with class with this worksheet.

\*\*\*TEST YOUR KNOWLEDGE OF PART 1 -- TAKE OUR QUIZ\*\*\*

Now that you've listened to San School lessons 1-4, take the first San School quiz.

\*\*\*TEST YOUR KNOWLEDGE OF PART 2 -- TAKE OUR QUIZ\*\*\*

Once you've viewed lessons 5-7, test your skills by taking part two of the San School quiz.

About Christopher Poelker: Aside from being an author and a SearchStorage.com San expert Christopher Poelker is a storage architect at Hitachi Data Systems. Prior to Hitachi, Chris was a lead storage architect/senior systems architect for Compaq Computer, Inc., in New York. While at Compaq, Chris built the sales/service engagement model for Compaq StorageWorks, and trained most of the company's VAR's, Channel's and Compaq ES/PS contacts on StorageWorks. Chris' certifications include: MCSE, MCT (Microsoft Trainer), MASE (Compaq Master ASE Storage Architect), and A+ certified (PC Technician).
