

Botswana: Indigenous Medicine - Potential And Pitfalls

Gaborone) OPINION 23 July 2007 Posted to the web 23 July 2007 Walking through the door to the spa at Fordoun Hotel and Spa is a refreshing experience. The Five-Star hotel, located in the rolling landscape of Kwa-Zulu Natal s midlands, boasts a restaurant and detached quarters for accommodation and a Spa. The Spa is said to be well known across the nine provinces of South Africa, and across the international tourism sector. Stepping into the spa, one encounters the feathery aroma of lotions and herbs. Soft lights give objects around a soft glow. To the right is a table and on top of it a plaque with the inscription Spa of the Month Award, May 2007. Congratulations Fordoun Hotel and Spa . There is a book on Natural Healing.
