I will not talk about the actual work of the drugs or whatever, but this is nothing, a 16-year-old, could go a pharmacy, it is only the weather as a cashier or whatever. I look for a job and I will have some form of work experience, employment in the medical category, no matter how real unrelative the occasion, I think it is like this. any suggestions? If you go to the local state-owned pharmacy, (Wal-Mart, walgreen, SAV-On or any of this kind of enterprises for sale but there is the guy who owns the place, there is in fact), and tell him that your interest in pharmacy practice, I think he would be very happy to answer you. Most pharmacists I know Road, I do not mind, or even like asked their career, their business. In some countries, you need to have 18 certified pharmacy technicians, we can really and prescription drugs (controlled substances). These laws from country to country. Accordingly the Board of Pharmacy found the request pharmacy technicians. Try a Yahoo search for \*\* yourstate Board pharmacies, everywhere there. you find some. Seriously, finding local guy who is in his position and told him that you are interested, but you love Pharmacy Esau, dust and washing the windows, you feel that the minimum wage is fine, because you really want to work, he might just give you a job. I know you are only 16 years old, but he wrote curriculum vitae. you will deeply impressed. Hospitals and nursing homes have volunteer programs. This is another thing, you might want to check out. I wish you the best of luck!

Viagragenericvs brand Although they are known as generic , these prescription drugs are expected to reach the same standards, or the innovator brand products. What is the difference between generic and brand-name drugs? A brand drug sales in a specific trade name from a factory. In most cases, brand-name drugs still under patent protection; Mean is the manufacturer s only source of the products, but in many countries of the world, this is not the case, a common approach is in place. Generic drugs are phase - with the active ingredient in the same dosage form as a brand name drug. drug therapy compared to the brand drug, but sold on the basis of their chemical weapons, or universal in their names. Generic drugs effectiveness of the brand-name drugs? Generic drugs contain the same active ingredients, in the same dosage form as a brand name drug. Strength and purity of generic drugs was strictly controlled. The United States Food and Drug Administration requires all generic manufacturers to demonstrate the generic drugs will have the same therapeutic effect as the brand is the same Measuring the speed and extent of drug absorption. generic drugs should be your illness or condition, with the same efficacy and safety as its brand equivalent. generics have to meet the same stringent requirements as brand-name drugs. Generic drug safety brand drugs? These generics has been in use for several billions to millions of patients, has once again proved that brand and generic drugs have the same effect in the body. Generic drugs than brand-name drugs? In most cases, yes. Cost research development and marketing of a new drug, including the money spent advertising products included with the price of the brand name drugs. Generic manufacturers significantly reduce the cost of development and promotion, therefore, unable to sell their products to do more with less. It is more expensive brand drugs have a better quality? No, the quality is the same. Both must meet the same stringent requirements.n

Not a good person to tell you that you should not ask. I work a website, reviews slimming pill weight loss plans, pills do work, they will give you a great head start, you feel good and your weight loss continued. I agree with the weight loss drug is not a solution if you put them do not change your life, provide better food and Excercise if you stop taking pills, you will start to gain weight. But I can recommend an all-natural diet pills, will cut 27% of the fat, and eating, with no side-effects. Check Out proactol my website <http://www.w8lossreviews.n>

Friends is a school of pharmacy technology, really strange, if he the right choice. Do you like it ... you know some people are pharmaceutical technology? My Dad is a technical pharmacies. He is in hospital pharmacies. He seems to feel like it, though he complained of a lot of small things, like two workers screw up, he had caught the wrong pharmacists get paid twice, and his doctors, they do not know what the roster. (Its preferred drug list on the use of pharmaceutical products, some doctors prescribe whatever they want to be the same even if much cheaper, because they actually stock in bulk). What he is a whineranywaythough. I heard him complain, the PLA 12 Then he told me that he thinks is a good thing, because I do. Objective.n

You can not. It is illegal to buy narcotic pain drug prescription. Every country needs to have a pain management doctor inhibit their prescription painkiller / painkiller. The only painkillers, you may need a doctor s prescription are those at the counter, as alieve, motrin, Aspirin (excluding codeine ). If you do not have access to prescription think you need it, maybe that is an indication, you addictive painkillers, and should seek counseling or help you Detox their systems. In a rare event, you can find people willing to sell their painkillers, you bet your health, and may in jail (not to mention you should \* not \* a prescription without a prescription to you, you should not self-particularly with their doctor s prescription pain medication. You do so at great risk to own-these drugs can kill you) prescription painkillers, in your possession without a prescription, indicating that they belong to you and consider it to the treatment of many if not most countries of illicit drugs will be confiscated if they are found in many countries have enacted tougher penalties to a misdemeanor by the re - the criminal offense.n

Looking for a good reference is much larger pharmaceutical companies, as a whole, the annual domestic drug development. By inference, in the end how much do they spend their marketing and profits? Have a special status in the Yahoo! Where can I get answers to the answer to the actual facts?

Yahoo tried to financial health supplies company should work ... Pharmaceutical companies : Roche [Http://www.pharmacy.org/company.n](http://www.pharmacy.org/company.n)

We do not have insurance, can not afford to buy medicine. Grandpa can not afford even to get. I know they are foreign pharmacies of drugs, if someone is aware that legitimate sites or pharmacies, so we hope you can help us. It is outrageous that people have to choose to eat or take necessary medicines. I know that it involves a lot of traps, so we need to prove that the practice is safe and legal. this has never been done, I do not know where to start, so that all relevant information and help are grateful to our family. rx which will cost 200 yuan over, we can not afford I know that many other countries have the same problem, so maybe we can help each other and find legitimate sources Therefore, we do not lose more money diplomacy traps. I know they are a dishonest person, your money and not give you asthma, but I hope that some atleast honesty, caring compassionate people are concerned enough to help us? I do not think I will buy medicine online. You try to recent Super Wal-Mart, I heard that they now offer programs that people without insurance. Prescription is 400 yuan, with a common type of medicine.
