

Report estimates county's illegal immigrant cost at \$256 million

Report estimates county's illegal immigrant cost at 256 million in 2006

By: GIG CONAUGHTON - Staff Writer

SAN DIEGO ---- A county-commissioned study estimated that illegal immigrants directly cost the county of San Diego and taxpayers 101 million last year, and indirectly cost an additional 155 million in unpaid medical care.

However, the estimates in the 40,000 study, which the county Board of Supervisors voted to pursue in May 2006, were largely based on anecdotal information rather than hard statistics.

Supervisors sought the study in the hope of presenting federal officials with a bill for the costs of illegal immigration in the border county of San Diego. Horn and the rest of the board say local governments and taxpayers should not have to pay extra for a "failed federal immigration policy."

The study itself, compiled by San Diego State University professor John Weeks and former Chula Vista Police Department border studies expert David Eisenberg, said the study "must be viewed with a certain amount of caution" because its estimates were based on anecdotal evidence.

Weeks said there aren't many hard numbers about the costs of illegal immigration because most agencies don't track residency status. In some cases they are forbidden to do so by federal funding laws. Weeks said estimates in the report were largely formulated by multiplying the budgets for county departments by 10 percent ---- a figure county officials said was a "reasonable" measure of illegal immigrants' cost to their programs.

The report estimated that illegal immigrants cost the county roughly 75 million in criminal justice costs, such as jailing and prosecuting, and 26 million in health, social and other costs.

Horn, who pushed hard for the study to be done, said Friday that he planned to use the report to lobby the federal government, through Rep. Brian Bilbray, R-Solana Beach, for help. He also said he thought the 255 million figure was too low ---- in part because he thought it underestimated the illegal immigrant population and did not take education costs into account.

"The next step is to get Bilbray to change the rules and get the hard numbers," Horn said. "I think they're extremely conservative."

Bilbray, who campaigned for the study along with Horn when both were running for election in 2006, issued a written statement saying he was eager to work with Horn to get federal reimbursement.

"When it comes to illegal immigration," Bilbray said in his statement, "the federal government is the biggest deadbeat dad in America."

Bilbray retained his seat after a campaign based on fighting illegal immigration.

In 2001, county supervisors released a study compiled by researchers for the United States-Mexico Border Counties Coalition that said the county spent more than 50.3 million in 1999 on criminal justice and medical care for illegal immigrants.

But in 1994, a report by the Urban Institute suggested that immigrants generate an overall surplus of 25 million to 30 million in taxes.

The new study also looked just at what costs illegal immigrants create, and did not try to look for benefits that illegal immigrants might bring the county.

"I'm not even asking that question," Horn said. "I spend taxpayer money for taxpayer services. That's my charge. My issue with the federal and state government is that they're asking me to spend my taxpayer money on people who don't even belong here."

Pedro Rios, San Diego director of the American Friends Service Committee, a Quaker human rights organization, said he was afraid the study would be used to promote "anti-immigrant sentiment."

"Some of the more extreme groups, vigilantes and others, generally maintain a position that migrants harm the general society," Rios said.

Weeks, meanwhile, said he hoped others would try to study what benefits illegal immigrants provided to the community, and that it was a relevant

calculation to the discussion of illegal-immigrant costs.

In his study, Weeks wrote that illegal immigrants obviously contribute in a variety of economic ways by spending money and providing services.

"My personal perspective is neither pro- or anti-immigration," Weeks said Friday. "The target audience for this report is the federal government ---- not to play into the arguments about whether immigration is good or bad, but to keep the need for some reasonable immigration reform legislation on the table."

Wow, leave it to NCT to attack this study in about 4 different ways. This study doesn't even include educating all the ... illegal alien students. The impact on our communities is devastating as far as welfare and other social programs. Pedro Rios now thinks that elected politicians are vigilantes. AFSC is the extremist race-based hate group who can't stand that the truth comes out that the illegal alien invasion is destroying America. They are fooling no one anymore.

So, just what did the "authors" of the "study" do for their \$40,000? Goof around with "anecdotal evidence". If we can send men to the moon, splice genes, etc., why can't we determine if there is a real economic problem here or not? This is about hard numbers and unfunded federal mandates. This is a big issue for southern California -- maybe the problem is not as great as we think, or maybe it is worse. It is clear we do not have the brightest bulbs on the tree addressing this issue, or a workable solution would have been formulated years ago.

What about some of the real cost to ourselves and our once great nation. When I was a kid they said it was going to be to crowded and the children we were about to have were unwanted. They only started messing with our heads at first. Then they launched Family Planning and a program called Zero Population Growth. About 1986 these same programs became the Safe Sex movement. The programs did work. They stopped the growth of the population of the founders of this once great nation. Now every spot and then some is being filled with illegal invaders by the same purveyor's of the population control programs. Now I find I have spent my life, not surrounded by children and grandchildren, but surrounded by illegal invaders and others the government prefers as residence. My lifetime has been pretty much lost in a lot of ways.

Revolution in governing. It is time to look into the Treason involved in the recent illegal passing of the agriculture bill that gives social services to illegal aliens. Should we also be subsidizing the criminals in businesses illegal labor? We should look into the fraud involved in the comprehensive immigration bills of the past that have only had the amnesty and gravy parts doled out to the illegal invaders while they never do get around to the enforcement parts. If this happened in the private sector they would have been charged with fraud long ago! Or the tax money going to race groups like La Raza. Or the Federal Governments involvement in the conspiracy to create sanctuary cities around the United States. Or the failure of government employees upholding their oaths of office. Or the failure to enforce the Aiding and Abetting Laws. We are going to have to restore law and order in our government before we can restore order in our streets.

There is no doubt what illegal immigration costs the taxpayers in many ways. Our insurance costs are so high because hospitals have to charge high fees to reimburse themselves for all the free care they provide to illegals. Then prison costs and on and on. Illegals spend a very limited amount of money in the US and send the bulk of it back to Mexico. Our children receive a poor education because illegals crowd the classrooms. The US is being financially drained by China and Mexico which are consuming what once was our middle class jobs. Expect a recession or worse soon and an open border with Mexico. We should be protesting in the street instead of being so apathetic and easily misled by the media.

I think we are about to reach a tipping point with immigration in this county. He we are struggling as citizens to live a decent life and all we hear is that there is not enough money for the basic services from the government (schools, medical). All the while the illegal immigrants are sucking the life right out of society and demanding citizenship instantly. I'M SICK AND TIRED OF IT!

The description of this study should be changed from "anecdotal" to "gossip." It lacks validity because it doesn't take into consideration the contribution of illegal immigrants in terms of exploited labor, social security and other tax contributions, not to mention millions of dollars in consumer purchases, rents, etc. Remember the words of Abraham Lincoln: you can fool some of the people some of the time, but not all the people all the time. Taxpayers deserve a more balanced and objective study, not one that fans the flames of nativist prejudice.

Open Borders mentality won't change the facts. Illegal's do cost the community tax payers millions. We can ignore the facts all day long, but the truth is the truth. I guess what we need to do is just stop paying taxes until our voices are heard. I wouldn't mind so much if illegals would just give back to the community, but that just isn't going to happen.

However, the estimates in the \$40,000 study, which the county Board of Supervisors voted to pursue in May 2006, were largely based on anecdotal information rather than hard statistics." Once again useless, exaggerated, inflated, unreliable reports. Our Government books in our High Schools say that the Latino population have the spending power of over 490 Billion dollars, I tend to believe that more than reports such as this. Give me hard statistics then maybe I will read on. Once again sloppy journalism by the North County Times.

I'm surprised that the cost estimates are so low. In any case, the study spotlights the lies about how illegals contribute so much to our local economy and how they are "only here to work and do the jobs American won't do". What are we all really saving if we save a few cents on a head of lettuce but end up paying hundreds of dollars per illegal in unpaid medical and other social programs? And I don't buy the claim that illegals pay taxes.

You are kidding. Right?!?!?!?!? Do you really think we the readers are that stupid. Who on earth is going to lend credibility to this worthless diatribe. I need cold hard facts not fallacies. Bill Horn should be more concerned about about paying the fines he owes for the mismanagement of his campaign instead of wasting taxpayer dollars on these ridiculous non-factual studies. To all of you who do believe this.....I have a bridge to sell you.

Having large numbers of poorly performing illegal aliens in classrooms also drives better students to private schools at great cost to their parents. This further lowers the quality of education as they better students flee the public schools to obtain an acceptable education. The cost of providing our children with a mediocre education due to having illegals in the classroom is a lifelong negative impact our children. Why do our children have to endure this lower quality of education, which reduces the quality of their lives, due to illegal aliens invading our country?

Is the North County Times for real? Why not just make this a little bit more incredible. Lets say the illegals are costing us \$475 billion oh, oh, oh, sorry that is the cost of the war in Iraq, sorry my bad. What is wrong at the North County Times are you all out of real news stories so you have to reach out and embrace half baked news?

I would agree, that the total cost is low in this study. I am sure that if they did an actual study, it would be much higher. We need to stop the invasion of illegal aliens and illegal drugs from coming into this country. We also need to STOP paying for all of the free benefits that the illegal aliens are receiving. WAKE-UP people! Let us do something about this and we as tax payers need to say that we DO NOT want are taxes going to pay for the illegal aliens benefits!

You know the courts go after dead beat dads. Why can't someone go after the federal government in the same fashion? I do not think it is fair for the American people to be paying the bills of the illegals. MOST of the American people did not invite them here in the first place. I think the politicians and the open border people that want them here should have to pay their bills. I bet their forgiving attitude for coming here illegally would end real quick.

Since when is fiction news? Why would the North County Times print such hogwash? I just don't understand why we need to be force feed such rubbish by the media. Is the North County Times really that desperate for news stories? Or perhaps they are just trying to fume the fires of hatred towards the immigrant community? What is the motive behind these types of articles? I am so disappointed that the NCT would attempt to insult my intelligence with such rubbish!

I want to know why the governemnt prohibits the gathering of statistics based on an individual's immigration status. Is it because the truth about how illegal aliens are slowly bleeding this nation to death with the costs associated with health, welfare, education and law enforcement will reveal the extent to which illegal immigration is completely out of control? We can't get a handle on spiraling public sector costs, which the taxpayer must bear, until we can get the real facts and figures on all individuals who are not here legally.

I agree - let the illegals self-deport and pay the bill on the way out the door. The actual costs are probably much higher than the report shows as not all data is available. That is \$250+ million dollars we don't have for our roads, police/fire services and education for legal citizen's children. How politically correct have we gotten that we are selling out even our own children to support criminals!

Weeks, meanwhile, said he hoped others would try to study what benefits illegal immigrants provided to the community, I'll tell you Professor John Weeks. The Illegals made my Auto Insurance rates go up The costs for me to visit a Hospital,They lowered my wages as a Carpenter,They made my tax dollars go up, Just giving you a few Ideas.. And by the way that will be \$25,000 for doing some freelance work for you cuz you don't know what you are talking about.

The conclusion of this 'study' was foregone. They failed to used facts and statistics according to this story so it's nothing more than someone's individual opinion with nothing to back it up. A complete waste of paper calculated to inflame increasing tensions on the immigration issue that wasn't an issue until Bush made it one.

Lets see, we just went through the greatest economic boom in the history of our county. Record house prices, low unemploymnet, everyone was happy. And we are going to say that illegals were not a benefit. Face it people, this nation is becoming more Hispanic, naturally. We can try to be like France and preserve our archaic ways, and look what is happening to them. Quebec as a French speaking province, I suggest you go to Montreal and see how French they really are, it is a joke. You can not stop the shifting tides of demographic shift, deal with it.

I am not a member of the pro-illegal audience, but I am a member of the human race and I find all the hatefilled comments on this forum sickening. "because its estimates were based on anecdotal evidence." How can you buy this. Why didn't Mr. Horn include in his anecdotal evidence the financial contribution made by these illegal immigrants as well. This is onesided journalism and I am disgusted.

It's time we built a wall across the entire border, and deport all of these illegal alien criminals. Crime in San Diego county dropped ... after the double layered wall was built here. And if we went after the employers of these criminals very harshly, we wouldn't even need to deport most of them, they would self deport.

I agree with Donald that the first change should be to allow information about immigration status to be collected at the point of service (hospital, school, etc). Of course, then we would know the true magnitude fo the problem, which is something that some don't want us to know. I also agree that it's the schools and American students that are really paying the price for this problem. In our own family, we ended up sending our son to a private school because of the ongoing discipline problems with non-English speakers in his crowded elementary school classes. Having been through public schools all my life, this was a bitter (and costly) pill for our family to swallow.

The greatest responsibility for today's devastating, massive, third world invasion of the United States of America can be laid directly at the doorstep of the Bush administration. Since President George W. Bush took office in January, 2001, a lax immigration enforcement policy has produced a forty percent increase in the number of illegal aliens domiciled in the U.S. Mr. Bush has continued to sing the praises of 'diversity' and 'cheap labor' and has hailed the migration of Mexican nationals coming to the U.S. to "do the work Americans won't do". This President has clearly failed to secure our borders and enforce our labor, tax and immigration laws. We must replace the current Bush 'open borders/amnesty' immigration policy with one of 'attrition through enforcment' if U.S. citizenship, sovereignty, and the rule of law are to be preserved. The danger is great and time is short.

What is costing me millions - no billions is not the immigrants who come here to work. It IS: the war in Iraq... politicians like Bilbray and I\$\$A who keep funding the war in Iraq while trying to build a democratic uptopia in the middle east... and people who vote for politicians who keep spending my tax money on the war in Iraq. We could have solved immigration - but we got a crappy war to lose instead.

I agree with most of the posts. This is just the tip of the iceberg of the extremely high cost of illegal immigration. How do we know? Anecdotal information sometimes speaks louder than statistics. Statistics can be made to show whatever the author wants them to show, but you just can't beat what we see around us every day. Paying billions in taxes for social services we can never use because that system is so bogged down by illegal immigrants mooching off of it. Our children struggling in schools bogged down by illegal immigrants demanding to be taught in spanish (no other immigrant group in history has ever made the demands that these illegal immigrants demand). These people come in this country to take,take,take and when we try to cut off a part of the gravy train they have the nerve to protest and make demands. Like an unwelcome/uninvited guest into our home taking advantage of our hospitality. GO HOME!!

So the local dishwasher who has no legal right to enter or reside in the United States supports his family of four on his minimum wage job. His children are more than likely born here and since he carries no health insurance, Medi-Cal is used for the births and babies are US Citizens. The local ER is used as their primary care facility too. Since he cannot afford to feed his family, he uses WIC (women-infants & children) as well as food stamps. Sure, he is a good Christian guy and all he wants is what is best for his family but WHY do I have to pay for it?? My uninsured auto insurance is sky-high because these folks drive unlicensed and uninsured, so again, I PAY FOR IT! Assuming whose social security number they use to work, I don't care how much taxes they pay. MY COUNTRY is changing and I do not like it. Our elected officials are sickening. Republican? Democrat? they are both equally useless. We need change in a big hurry.

We need to blame our elected officials for what has happened. If you want a reason as to why this has been allowed to happen, look no further than coporate America. The big coporations are benefiting from all this cheap labor that this legal and illegal immigration has fostered. Just this week the government is now opening up our American roads to Mexican semi-trucks. Again, who is that benefiting. Coporate America is the answer once again. The American worker is taking a beating. These are not jobs picking strawberries that are being sold out, so that big companies can get cheaper transportation costs... these are well paid Americans who are again losing their jobs to people who will work for a couple dollars an hour. We have an election coming up and I bet that many of the representatives will be re-elected. Isn't it time for some change. VOTE!

Think about it. Two hundred and fifty six million dollars. Think back on the times the county has made excuses to the citizens about why they cannot have free public swimming pools for kids, or why they have to raise taxes or something important won't get done. Think of your own specific examples. The police have been told to give out more tickets to cover for the bottomless financial pit that illegal immigration is. Always, it's the honest taxpaying person that gets screwed. Americans have become so butt dumb that they'd be satisfied if they degenerated down to living in a straw shack, with a television, as long as a power line could bring in football and Oprah.

Two hundred and fifty six million dollars could cover Americans who are out of work and allow them free medical care for serious injuries, etc. as is the case in Europe. The only people in California that receive free care is the illegal aliens. Note to all American citizens and Californians: From a famous movie--stupid is as stupid does.

INVADERS?? INVADERS?? I DON'T THINK MY ILLEGAL NEIGHBORS ARE INVADING THIS COUNTRY. I THINK A DIFFERENT WAVE OF HATE IS ON THE RISE IN THIS COUNTRY.... I THINK PEOPLE NEED TO HIT THE BOOKS AND STUDY OUR COUNTRY'S HISTORY. IF YOU ARE NOT A NATIVE AMERICAN THEN CONSIDER YOURSELF AN INVADER TOO. GIVE THEM A BREAK THIS USED TO BE THEIR LAND (SOCAL) BEFORE US GREEDY AMERICANS TOOK IT.

One of the commenters above was trying to defend illegal immigration and their contribution to society; one contribution that person said they give this country is "exploited labor." Exactly, pro-illegal immigration people are complicit and encouraging the exploitation of people who illegally enter our country. Thanks for making one of my points for me, Border Watch.

Baaaa Baaaa wake up little sheep, illegal immigrants are not an issue now, nor have they been for the last 50 years. The government is trying to brainwash all of you while they plunder the mid east with the blood of our sons and daughters. Stand up and wake up it's time to take our country back from the corruption that is infecting our county and our country!

Two hundred and fifty six million. That is more than a quarter billion dollars. How can American citizens be so b-tt dumb to accept this cr-p? I love all of those people who are in a huff about Iraq, and could care less what happens in their own homeland. Weird. Very weird. Can you say mis-placed priorities?

People on this post who make up excuses for illegal immigration, are lawless people who are 1) either profiting from illegal immigration, 2) cowards who would give away their culture, language and customs to a foreign country. I heard it all before. Typical cowardly American, (say it with a whiny voice) "Well if I have to learn Spanish, I guess it's good for me. That's what the administration says. I'll do whatever's asked of me. I wouldn't want to make anyone mad". God help us.

What did it cost in 2007? Again, this is not an immigration problem. It is an invasion. What does it cost us when our children are less educated, their health is compromised by a deteriorating health care system, and they can't find a starter job, because we have given them all a way. I started out doing landscape, worked in a grocery store and fast food restaurant. There are not jobs left like for high school and college kids. The ignorance of the American people will cost their children and children's children the right to hope and the ability to have their own family.

I'm really curious what Bill Flores from El Grupo and even Ed Sifuentes from the NCT has to say about this. We haven't even scratched the surface of all the "costs" Americans have had to pay for illegal aliens. What about prosecution and incarceration of illegal aliens in our justice system? What about the increased costs Americans have had to pay for uninsured motorist coverage on our automobile insurance because of the illegal aliens (and Mexicans in general) who are without insurance? What about the hit-and-run accidents caused by illegal aliens? The list goes on and on, which is why Americans are thoroughly fed up with illegal aliens.

My neighbor was complaining about illegals. I asked if she hires them to do yard work. She said she doesn't, but her husband does. Seems she should be complaining to him. If you don't want illegals in this country, refuse to hire them or to consume the goods and services they provide. Also, crack down on the employers who hire them. Personally, I'm more worried about Iraq and China, which is robbing us of jobs and buying up America with the money we spend on their goods & services.

Typical response said my comments were "hate filled". No. Hate filled is cutting some seniors on fixed incomes medical to accommodate illegal aliens, allowing illegal aliens to steal Americans identities, forcing hardworking taxpayers to pay for the enormous social costs of people who have never been invited here by the greater American public, making children who are citizens sit in classroom and having their time wasted to teach people who shouldn't be here English, having unidentified people roaming around and killing people in car accidents, allowing an open border where child molesters, murderers, thieves and drug dealers can perpetrate their crimes on American citizens. Who knows who else is coming through unidentified

and what their plans are? Politicians and other enablers of illegality who allow all of this, are indeed "hate filled" towards honest American citizens of all stripes. I'll never understand people that condone lawlessness.

It must be great to be Bobby. Illegals are scapegoats for all our problems. I will just follow his footsteps, stick my head in the sand and blame someone else for everything. Watch out Bobby this illegal issue may be over soon and you will have to stay with the pack of sheep to see what the press tells you to be upset about next.

Final comment, what is so fair to Americans, when politicians who suck up to big business put the interests of the ancestors of Americans who have paid taxes and built up this nation ahead of people who have not invested a dime to build this nation? It seems to me illegal immigration is not only unfair but immoral as well, especially when citizens are forced to support so many of these people. And lets not kid ourselves that is exactly what is happening, if you are at all informed.

We're losing a war we don't even know we're in...On September 3, 2007, Mexico's President stated, "I have said that Mexico does not stop at its border, that wherever there is a Mexican, there is Mexico." -- Mexico's strategy is brilliant. Mexico is effectively taking control of our territory simply by having its citizens walk across our undefended border. Their only "weapon" is shoes.

Your Children STRuggle Becasue you fail as parents.... my children aren't struggling because of the brown boogie man. They are just missing out on opportunities I use to have when I went to school... free art classes in elementary school, free driver's ed & training in high school, etc. I have been involved in classrooms as well as fundraising for schools that my children have gone to. They're missing out because the school district doesn't have money for these programs anymore. But hmmm... there's money to educate ILLEGAL students?

This article is well thought out and informative. It is just too bad that the numbers for the cost of education and the costs for services going to unknown illegal aliens are not included. Now look at the big picture. These are just a sampling of the costs for one county. Is there any doubt that for Los Angeles, San Bernardino, and Orange Counties are many many times greater? You can tell that most of the nasty comments made on this story are from the same person or a few people who are blatantly for open borders or the giving up of our sovereign country. Their strategy is apparent as when they cannot present a logical rebuttal; they start with the name-calling and the chants of racist. This story does nothing to inflame anti-legal immigration but merely points out the facts, of which most of us know anyway. We all have eyes, and we are not dumb.

Education funding is the 800 pound gorilla. The California state lottery was pushed as the solution to education funding in this state. Yet every election I am asked to approve another new bond to build schools to educate children of illegal aliens. Every year I must buy a bus pass so my son can ride the bus to school and the children of illegal aliens can ride free. The federal government has effectively passed on the hidden costs of illegal immigration to the state and local taxpayer by forbidding schools to ask for immigration status. We know we're being scammed for millions, but we can't even present a bill to the feds because they won't allow us to collect the data necessary to calculate the bill.

Why are we even having to have a study. Our so called Senate is pandering to big business rather than securing our borders and enforcing immigration laws. People you need to look at who you are voting for! We are lucky to have Bilbray, Hunter, Issa, Rorhbacher, Wyland and some others. Vote out those that are ruining our state. If some of you do not realize what the negative impact of illegal immigration is having then you need to get out more. If the majority of our leadership in this country was doing their job this would not even be an issue. The Democrat Presidential Candidates were just wooing the latinos in Florida. They call those wanting to secure the borders and that want our laws enforced racist. They are as bad as the the pro illegal groups!

We have 9 guest worker programs. Our government can't even track these. These programs are already abused by businesses. We have enough prisoners in California that could pick all of the produce in the United States. I understand this program is working well in Colorado. Our borders should be secured and our immigration laws respected. Our businesses should be fined heavily for being the magnet of illegal immigration. More citizens are being killed by the criminal element that has come with illegal immigration then our fine Americans that lost their lives in the Iraq War. We have our own war here and that is no respect for our borders and immigration laws. Those mostly democrat senators and several republican senators are allowing it to happen. The republican congressmembers have been fighting hard to bring the rule of law back to our borders. Thank goodness Busby wasn't voted into office or we'd have another pro amnesty leader in office to ruin California. Feinstein and Boxer need to go. Feinstein no more Orange card ag job proposals are needed. Use our prisoners!

Many women are very concerned with breast is straight , as it is beautiful female curves start. But how many people will keep its health concern? Relevant statistics show that breast cancer is still the city s first female malignancy, and by 2.7% in the rapidly increasing speed. Actually, such as breast lumps female diseases, as long as careful attention in life, is not difficult since early Kam s. Annoying cyclical pain Guan said that she do not know when to start from, often emerging cyclical breast pain. Later touch to those large and small nodules that inevitably made her up: their breasts out what is not? After doctors diagnosed the original with a breast lobular hyperplasia. Breast hyperplasia 1. In the side or on both sides of palpable breast size, hardness another, the mass limits is not very clear, the surface seems to be a small particles, but with the skin, fascia no adhesion. Pressing a finger can feel pain. 2. Each breast pain by the former Special obviously, and menstrual discomfort, pain will be lessened or disappeared, local mass may also narrow. So, before the cyclical breast pain is one of the important signs.n

Expert analysis: The incidence of mammary hyperplasia, and estrogen levels and a certain emotional association. The 20-year-old female, especially after the age of 30 to 40-year-old female at this stage, the body s hormone level changes within the complex, and from the work and life of the pressure that hormonal changes of greater volatility. About 80% of the women in their lives, or will be early or late with breast hyperplasia.n

Treatment recommendations: If it is found that breast hyperplasia, symptoms of light, generally without treatment; Serious symptoms can be appropriate under the guidance of a doctor to take androgen; Chinese medicine also can be used more small Dan Jin, Xiaoyao pill, have good results.

Although more than 90% of mammary hyperplasia is lost because the endocrine balance caused by physiological changes, but also a serious proliferation of a tumor proliferation. Data shows that in patients with proliferative breast breast cancer incidence rates than normal breast up to two to four times. Do you regularly follow-up recommendations, usually avoid the use of facial cream containing estrogen and medication. The sudden swelling Discharged just given birth, for unknown reasons, breast-unexplained sudden hard, and the pain became, especially when the baby fat and stink, it must pain in the body cramps. Acute mastitis 1. Breast pain swelling, tenderness of a palpable mass, surface skin redness; Severe pain may spread to armpit. 2. There will also systemic cold and fever symptoms. 3. A few days later, inflammatory mass may be softening abscess formation. Then the superficial abscess fine fluctuated flu.n

Expert analysis: Have occurred because of acute mastitis in lactating women, and relatively easy to identify other breast pain. 2 to 3 days postpartum, as partial breast blood, body fluids, the increase in the milk of filling up has become, if not timely for baby sucking, or improper feeding methods so that the breast timely dredging, sedimentation milk, bacteria and easy invasive breast infection.n

Treatment recommendations: Early first use of the infant breast milk within the aspiration of all, then golden powder topical in the breast; Or a fresh Response Leaves of Grass, wash pots, Pottery one nostril size of a small circle of long, filled with both nostrils, every two to three hours a dressing change. If unilateral breast inflammatory drugs only to the Cypriots in the opposite nostril, two to three days may ease symptoms. If serious inflammation, it is timely to go to the hospital, according to conditions, under the guidance of doctors in the use of antibiotic treatment. Because breast mastitis is the inflammation of the organization, the milk is not a problem, so the treatment, or to continue to herself, pain baby breastfeeding. Inadvertently palpable mass Lin-girlfriend was found in the examination suffering from a breast cancer , how will? Thought here, Lin-Lin could not help but also some tension at night before bedtime touched their breasts, did not expect the left breast lumps really small? Doctors, after careful examination, assure her it is a fibrous tumor. Fibers of milk 1. Tumor growth was relatively slow, multi-location above the nipple, is the single-most, a few of them multiple. 2. Mass clear border with the surrounding tissue and not at risk of skin adhesion activity is relatively large. 3. Mass texture flexible hardware and firmware, no obvious pain after compression.n

Treatment recommendations: Surgical resection and prevent future pregnancy or breast-feeding pregnancy hormone rapidly increasing role. How also president of the dimple Ying-ying was right with their lobular hyperplasia, and not care, the doctors let her between three to six months of follow-up asked to go to the hospital, she implementation of a recent Ying-ying suddenly found their breasts sag seems to be a longer, as a small dimple. She urgently to a hospital for treatment after equipment such as high-resolution color Doppler ultrasound examination confirmed she is really suffering from: breast cancer, but this is one. Breast cancer 1. Most lumps in the side, commonly found in the breast, above, followed by the top and around the nipple. Initial can no sense. 2. Mass generally firm, smooth surface, the boundary is not clear, pushed the hands fixed. 3. Nipple discharge may occur, the late local orange peel-like skin will change, and axillary lymph nodes or supraclavicular lymph nodes.n

Expert analysis: Breast-long dimple is formed by the skin sag, dimple in the ligament and breast 1,200, 1,200 by the ligament tumor infiltration or inflammation caused contraction, the skin will appear on the dimple. Generally speaking, this is the early manifestation of breast cancer. The vast majority of breast lobular hyperplasia should be no change for change breast cancer, unless accompanied by atypical hyperplasia. So usually do regular follow-up is very important. High-risk groups prone to breast cancer include: family history, to the early, early menopause, not fertility, and not breastfeeding women over the age of 45.n

Treatment recommendations: Discovery of suspicious breast lumps should be timely to go to the hospital for the necessary examination, especially for high-risk groups should have early prevention awareness, a month after the end of the week menstrual breast self-examination, regular follow-up or to go to the hospital. As soon as possible after diagnosis by the doctor's advice, or surgery or drug treatment. Under normal circumstances, the survival of patients with breast cancer and found a great period of the relationship.

Three is not more than 50%. Peacetime should maintain a healthy lifestyle, eating more soybean products, citrus fruits, to a certain extent help prevent breast cancer. Related Links Self Test Trilogy The mirror that breast screening is not unusual appearance, such as skin whether Depression, the nipple discharge, breast whether bilateral symmetry, raised his arms, breast movement can naturally followed. The bath, raised his right arm with his left hand soap Covered with a top-down inspection of compression. If breasts droop, first with the primary stress on breast examination. Check nipple, and the four available thumb that were placed on both sides of breast, squeezing breasts, on whether or bloody discharge from the nipple yellow liquid outflow. lie down when supine, placed a pillow under the right shoulder with his left hand and the middle three refers to the top-down pulp painting small circle moves forcefully pressing the entire breast examination; Then the right hand by the same method checks incision.
