

Cuba: Guatemalan VP Meets with Carlos Lage

Lage during the meeting held at the venue of the Cuban Council of Ministers in Havana.

For his part, Espada expressed his satisfaction for his visit and for celebrating the tenth anniversary of the reestablishment of relations between the two countries.

He also wished Cuban President Fidel Castro a speedy recovery.

Also present in the meeting were the island

Communist Party.

The visiting delegation also includes the Guatemalan minister of Culture and Sports, Jeronimo Lancerio Estuardo Galvez, and the vice minister of Energy and Mines, Carlos Meanny Valerio, as well as Jesus Oliva, Dean of the School of Medicine at the University of San Carlos.

On Thursday, the Guatemalan delegation visited the Havana-based Latin American School of Medicine.

Unable to fully cure, and even successive amputations. However, Japan is a medical unit in the treatment of this history with a totally different country, the majority of superoxide by electrolysis of water with treatment, in clinical confirmed that superoxide water sterilization effect is extremely alarming, coupled with the antioxidant drink of water and found new granulation rapid, short-term wounds can be healed, while blood glucose levels stable, the study confirmed that Dr. Lin, with energy medicine in such a manner that can quickly improve immunity, while the wound pathogens can be completely eliminated. Such as health care, truly meet the once and radical the highest ideals of Medicine, it is vigorously promoted.

Electrolysis of water and electrolytic reduction of water that is relatively energy, its use is very extensive, if properly applied to medicine, into the health care system, will be the next big breakthrough in medical one, and is also a professional domestic R D promotion agencies. Dr. Lin convinced that the Republic of China through the electrolysis of water Development Association will be able to help promote energy medicine new medical field, in its planning, related clinical outcome, will continue in the media.

Briefly known, strong electrolytic oxidation water (ultra-acidic water) main features include:

First, the various dental cleaning, disinfection and sterilization, and even when the teeth rectification of mouthwash, etc. It can be said that at present the most widely used in medical kind.

Second, the field of skin disease remission. Including the most annoying allergic dermatitis, Hong Kong legs, ringworm, MO Ming tickle the sense of immersion are available, or spray applied directly apply mature skin to relieve discomfort.

Third, the wound and ulcer treatment, including wound infection, erosion, bedsores and fire injuries, burns, diabetes caused by skin or shoot

Fourth, the respiratory washing, such as nasal inflammation, tonsils inflammation, inflammation of the throat and must wash throat , strong electrolytic oxidation water is a good choice.

5, urinary and Baixiejitong of washing, such as the perineum, anus cleansing, or a sense of deterioration effect.

6, the washing of medical devices, including endoscopic, hemodialysis instrument (dialysis machine) disinfection, cleaning, can be used.

7, the kitchen, bathroom cleaning, removal of odour.

8, the washing fruits and vegetables, to remove dirt or pesticide, fertilizer residues, many security than detergent.

9, the hospital s cleaning the floor, according to Japan some hospital tests, can reduce nosocomial infection ratio.

10, as a non-toxic organic agriculture sterilization of water, replace the widely used pesticide various sterilization.
