

Home Remedies for Stress Tips for Combating Stress

Where a one-time purchase of two patients with drug treatment, I can become a centre Medicare members, a gift card, with members such as occasional drug treatment recovered two or three years to present their membership card recurrence and local Laboratory-to obtain free medical treatment until rehabilitation.

In order to ensure the quality of drugs and price stability, our academy uniform distribution by the Ministry of drugs and, in particular, commissioned by the State Post Bureau Speedpost (EMS) drugs directly to your hands, your homes, Enjoy Pok Oi Hospital of experience Sinopharm effects, zero risk to protect patient privacy!

Beijing inconvenience patients, if the purchase Please leave your contact telephone and address details, we would have been the first time in the hands of drugs to you, do not delay the treatment of your valuable time, on the order of privacy: I use the post office will be standard hospital wrapped boxes filled out mail- stationery to ensure your privacy, you can be assured of order!

Hospital drug benefit of Welcomes You Capsule and Compound new Qudu Capsule is a venture-son combination of traditional Chinese and western medicine treatment, the clinical proof, medicines without any side effects, patients can be assured use

Institute of Urology Branch Member. Long engaged in research in medicine, by the late 1980s, I transferred from the hospital, the bleeding in the professional medical treatment of sexually transmitted diseases in clinical and research work, the first time the natural medicine immune activation of stubborn recurrence of condyloma acuminata, genital Herpes, non-gonococcus urethritis, prostatitis, and other sexually transmitted diseases are rich in urologic clinical experience.

Monitoring verified by the hospital, some urban areas in counterfeit products. In order to safeguard the reputation hospital, ensuring that the patient medication safety, any inconvenience to Beijing to visit patients, such as the need for the purchase, please direct telephone contact with the hospital. If purchased from other channels counterfeit, and the Museum was not responsible.

Herpes virus found so far about 100 species, of which there are at least eight kinds can infect humans, the most common clinical virus HSV-1 and HSV-2, clinical performance for diversification, the typical damage, but also typical hard Identification of damage, Elinchuangganran are asymptomatic carriers of the virus and the human body is divided into six clinical manifestations:

(1) primary reproductive herpes: incubation period is about six days, the good parts for men glans, Guanzhuanggou beryllium, scrotum and the female genital urethral, anal, cervical, legs and buttocks, the early lesions are hot , itching flu. Then a number of people with cluster size needle red papules, quickly turned into miliary bean size blisters, blisters rupture wall erosion or ulcer formation, secretion, after drying scars, pain more often, in lymph nodes can be nearly tumor. Anorectal involvement can Lijihouchong, constipation, anal rectal pain, mucous secretions, accompanied neurological symptoms, including paresthesia, neuralgia, dysuria and yang course of 2-3 weeks.

(2) The initial, non-reproductive herpes: that is, HSV infection, serum anti-HSV-positive, the first love HSV-2 infection from genital herpes site, the erosion ulcers, scars of the damage, the magnitude better than the original, Genital herpes slightly light.

(3) recurrent reproductive herpes: general primary genital herpes in healing damage after 1-4 months. HSV-2 infection within one year after about 60% of the patients who relapse more than a year were more than six times recurrence. HSV-1 infection recurrence rate was 14%, recurrent symptoms are lighter, have shorter duration.

(4) immune disorder reproductive herpes: immunocompromised patients with immunodeficiency or HSV infection of patients, blood can occur disseminated HSV infection, the patients have a wide range of skin and mucosal damage visceral damage the central nervous system damage, clinical corresponding symptoms, after more poor.

(5) pregnancy and reproductive herpes: pregnancy and non-pregnancy reproductive herpes clinical manifestations, but HSV infection in pregnant women after the fetus influential Original reproductive herpes pregnant women from cervical detoxification also decreased, transmission to the fetus than the chance less about 0% to 8%. HSV infection during early pregnancy can cause miscarriages, premature births and stillbirths. By the middle of amniotic membrane, or early neonatal infection caused broken light can be asymptomatic, can be re-sowing of HSV infection occurred, and central nervous system damage internal organs, the high mortality rate.

(6) Elinchuanganran: that is, without the performance of HSV genital herpes infection, in fact the majority of HSV-positive is not difficult to identify the typical genital herpes damage, and less than the reversal of asymptomatic. HSV infection in asymptomatic persons will be from viruses, infect other people.

(7) HSV infection is often due to abrasion on the skin or mucous membrane exposure to the virus, the virus after the first epidermal reproduction, cell damage and inflammation, and clinical inflammation even for the reproduction of blisters, visible under the microscope multicore Cytomegalovirus, localized necrosis, the infected cells balloon degeneration, in the initial infection, the virus can spread through the lymphatic nearby lymph nodes, and further spread the virus was humoral and cellular immune control, that is, the virus infection Initially, HSV enter sensory neurons, the potential infection.

. Genital herpes picture

I set hospital and clinical research in the integrated treatment of urological diseases professional institutions, the Group of combining several decades, the production of the world s most advanced drugs, non-toxic, radical cure for genital herpes, blood and can kill tissue virus, and can kill within depth ganglion virus completely from the body, supplemented by the centralizer pui, enhance immunity, so that the body produced endogenous antibodies, full and complete cure genital herpes.

Welcomes the benefits of gifted Capsule and Compound new Qudu Capsule series of violent drug Reply Chinese revolution, to overcome herpes, herpes patients never again sadness

Although the herpes lesions on the surface, but the illness is in the body. HPV DNA virus persistence in the basal layer or germinal epithelium cells, HSV virus is hiding in the body sacral ganglion, conventional drugs difficult to infiltrate into the basal layer, germinal cells and ganglion will kill their clearance, only can inhibit viral replication, and physical therapy can eliminate the symptoms. many hospitals through interferon, interleukin-treatment only enhanced host immune whose role is indirect and interferon itself does not kill the virus.

First potent bactericidal welcomes the benefits of gifted Capsule and Compound new Qudu Capsule its unique series of drug-drug role in the infiltration of a superpower, can direct lesions quickly and accurately identify a virus or bacteria, adopts the international advanced Gene technology so that the benefits of Welcomes You Capsule and Compound new Qudu Capsule to achieve an excellent therapeutic concentration, the first latent in the body of blood, the basal layer of skin, germinal cells and ganglion of viruses or bacteria completely kill

The second step through the full metabolic detoxification DNA fragments from viruses and to prevent pieces reorganization.

The third step positioning detoxification can be potent bactericidal positioning detoxification therapy super permeability of the nerve cells and nerve junction in the virus completely from the killing. Genital herpes has completely broken the myth that can not be cured.

The fourth step system restoration of the benefits of Welcomes You Capsule and Compound new Qudu Capsule in the series of drug rich mucosal repair factor to quickly repair damaged and diseased tissue cells, eliminating metabolism disorders, immune deficiencies corrected, thoroughly restoring the body functions

Step 5 - enhancing immune restoration disease kill pathogens in the same time. Stimulate the body to produce protective immunity to prevent virus infection, and rapid repair lesions, effectively boosting the body s immune capability to meet the purpose of the root cause and symptoms. Adopted tens of thousands of cases of clinical validation: The series of strong drug-lasting and effective, once and for all, a course that is generally 1-2 to eradicate, but never more after recurrence.

The clinical validation, whether oral, genital herpes repeated attack patients.

Adhere to take a course in virus can be eliminated, Introduction into biological therapy can quickly activate their own immune system to produce antibodies, to eradicate. Welcomes the benefits of gifted Capsule and Compound new Qudu Capsule treatment of genital herpes, both history and more Recurrent multi-long, two days after the general administration, blisters disappear, taking a course of 15 days can be the eradication of herpes virus, taking two courses to adhere to their own immune system to produce antibodies activated, so as to achieve reproductive herpes recurrence after treatment is no longer the purpose of . welcomes the benefits of gifted Capsule and Compound new Qudu capsule is not only the pride of China s medical history, but also to capture the complexity of human infection milestone.

Case 1 Elsie, female, 28 years old, teachers, Shijiazhuang City, Hebei Province, the initial February 15, 2002 suffering from genital herpes has been more than four years, a monthly menstrual attack, the perineum Tugan burning discomfort, a slight pain, erythema, erythema Department blisters, erosion, exudate, and the illness was recurrent, to menstrual month when a recurrence to a local hospital diagnosed as Genital Herpes , by intravenous injection, 250 mg acyclovir, 8 hours once, for 7 days after the injection to recover next month after menstruation to herpes and had a relapse, and have also used Western medicine famciclovir tablets, clothes for 15 days to recover and then repeated attack since the wife had the disease and divorce, to remarry fear future husband know this, and determined to cure the disease completely, introduced by relatives to hospital treatment, the treatment, taken the benefits of Welcomes You Capsule and Compound new Qudu Capsule a course of the past month after menstruation , alleviate symptoms, the use of two consecutive no recurrence after treatment, the hospital blood test (HSV) Herpes simplex virus-negative, will come to heal, to stop so far showed no recurrence.

Case 2 Mr. Wang, male, 45 years old, Tianjinren, a manager of the company. April 15, 2003 with recurrent genital herpes more than 2 years, 2 years ago of unknown causes a burning penis, and the pain of erythema, border clear that the inflammation, did not pay attention to the second morning also found blisters, that is inconsistent with the Financials, exudate, in a hospital laboratory testing, diagnosis of genital herpes and using western medicine acyclovir tablets and Oral acyclovir ointment was applied externally, recovered after treatment five days after the exception stay up late, tiredness, local that is, obviously erythema, poly muscle cells, anti-virus oral liquid, Banlangen granule, and Jianbo Chinese medicine, still control their recurrence. Patients with extremely painful, reduced the number of attacks in recent years, and every two to three months, ranging from a recurrence, and the attack, in order to eradicate the disease, as a friend, I come from attendance, taking two courses, Yi Capsule of Welcomes You and Compound new Qudu Capsule , Nanyanzhiyin be eradicated, interview two years ago showed no recurrence.
